

LEIMAN NON-WOVEN FILTER CLOTH

Fuel Filter Filter Cloth

It is suitable for internal combustion engine fuel system filter. It adopts ultrafine fiber non-woven fabric, which can effectively isolate the tinny water particles in the fuel, improve the fuel combustion value, improve the cleanliness of exhaust emissions, and meet new emission standards.

TECHNICAL DATA SHEET: LM-GP10TT

- Weight: 140g/m² ±10%
- Thickness: 0.95±0.15 mm
- Air Permeability: ≥150 L/m²/s
- Pressure Drop: ≤100 Pa
- Filtration Efficiency:
 - 1 μm: ≥75%
 - 2 μm: ≥80%
 - 5 μm: ≥85%
