

**Hebei Leiman Filter Material Co., Ltd.**  
*One Stop Solution Designer to Filter Production*

# PL-AUTO55-800F

*Automatic Knife Folding Machine*

<b>Product Name</b>	<b>PL-AUTO55-800F</b>
Pleating Speed	0-220 pleats/min
Adjustable Pleating Height	4-100 mm
Max. Paper Width	800 mm
Operating Temperature	Up to 250 °C
Motor Power	4 kW
Heating Power	4 kW
Working Air Pressure	0.6 MPa
Power Supply	380/50 V/Hz
M/C Weight	750 kg
M/C Size (L × W × H)	2600 × 1600 × 1800 mm

## *Applications*

*The device is applicable to any material or multilevel material folded filter paper. This production line is suitable for the automobile industry three, hydraulic industry, purification industry, the water treatment industry.*

The folding machine adopts upper and lower knife alternatively perform folding, from the knife automatic adjustment by computer, can reach different fold higher requirements and accurate size.

This machine can also be folded all the different rules of fold change.

In the paper folding machine automatic dotting counter, folding processing and preheating and forming etc.

Folding knife of this machine can change any angle, ensure the folding does not damage any kind of filter material.
