

Hebei Leiman Filter Material Co., Ltd.
One Stop Solution Designer to Filter Production

PLBL-60

60 Station Automatic U Type Rotary Oven Production Line

Product Name	PLBL-60
Production Capacity	0-5 m/min (adjustable)
Product Specifications (L × W × H)	400 × 400 × 1200 mm
Station Size (L × W)	500 × 400 mm
Hot Melt Machine Weight	10 kg
Power	10.5 kW
Working Air Pressure	0.8 MPa
Power Supply	380 V / 50 Hz
M/C Weight	1500 kg
M/C Size (L × W × H)	13500 × 1750 × 1200 mm

Applications

This equipment is suitable for U-shaped rotary drying of automobile air filter elements.

This machine mechanical structure reliability, electrical control convenient, pneumatically operated, quick.

High degree of automation, product height ≤100 mm, the product can be produced without debugging
