

PLFJ-2A

Customize Automation Panel Air Filter Gluing Machine

Features

- Stable gluing performance. Ensures uniform hot melt line dispensing on panel air filters for consistent product quality.
- High efficiency. Production capacity up to 6 pcs/min enables continuous and efficient manufacturing.
- Customizable automation. Equipped with an adjustable automation control system for flexible operation and production needs.

Applications

- Panel air filter manufacturing.
- Hot melt glue application on filter surfaces.
- Automotive filter production lines.
- Air filter factories requiring stable and efficient gluing solutions.

Specification

- Product name: PLFJ-2A
- Product compatibility: 6 pcs/min
- Hot melt capacity: 10 kg
- Hot melt applicator heat power: 6 kW
- Working air pressure: 0.6 MPa
- Main machine power: 120 W
- Power supply: 380 V / 50 Hz
- M/C weight: 250 kg
- Main machine size (L × W × H): 4000 × 585 × 1250 mm
- Hot melt applicator size (L × W × H): 600 × 700 × 1325 mm
