One Stop Solution to your Filters Production

# PLM-BF-0301C

## Automatic Outer Frame Forming Machine

### Features

- Accurate length control. Accurate length control with  $\pm 1$  mm precision.
- Servo motor control. Servo motor drive with adjustable speed.
- Intuitive HMI. User-friendly HMI touch-screen operation.
- Counting & detection. Equipped with counting and detection functions.
- Automatic feeding. Supports auto-feeding for continuous production.

### Specification

- Product Name: PLM-BF-0301C
- Speed: 120–150 groups/hour
- Power: 3–380 V, 5.5 kW
- Gas Consumption: 40 L/min
- Size: 2500 × 500 × 1500 mm
- Weight: 840 kg

### Applications

Primarily designed to produce outer frames for bag-type air filters in HVAC systems, cleanrooms, and industrial filtration.
