One Stop Solution to your Filters Production

PLM-BF-0301H

Automatic Outer Frame Forming Machine

Features

- High accuracy. High length control with ± 1 mm precision.
- Servo motor control. Servo motor drive with adjustable speed for smooth and stable production.
- Intuitive HMI. User-friendly HMI touch screen for easy setup and monitoring.
- Counting & detection. Integrated counting and detection for reliable batch control.
- Automatic feeding. Automatic feeding system for continuous, efficient operation.

Applications

Suitable for producing the outer frames of bag-type air filters used in HVAC systems, industrial dust filtration, cleanrooms, and commercial air purification equipment.

Specification

- Product Name: PLM-BF-0301H
- Speed: 120–150 groups/hour
- Power: 3–380 V, 5.5 kW
- Gas Consumption: 40 L/min
- Size: 2500 × 600 × 1500 mm
- Weight: 840 kg
