One Stop Solution to your Filters Production

PLM-DSK-1

Filter Mounting Frame Machine

Specification

- Product Name: PLM-DSK-1
- Speed: 60–70 groups/hour
- Power: 3–380 V, 21.5 kW
- Size: 7500 × 1000 × 1400 mm
- Weight: 2840 kg

Features

- High Precision. Forming accuracy within ± 0.5 mm.
- Servo Control. Stable operation with adjustable speed.
- HMI Operation. Simple and intuitive touchscreen control.
- Auto Counting. Built-in counting and detection function.
- Integrated Design. Feeding frame and pneumatic bending system included.

Applications

Used for manufacturing metal mounting frames for air filters, widely applied in air filter production, HVAC systems, and industrial filtration equipment.
