One Stop Solution to your Filters Production

PLM-JTNK-1

Auto Strip Clamping Machine

Specification

- Product Name: PLM-JTNK-1
- Applicable clip strip: 24/20/12 inches
- Efficiency: 30–40 times/min
- Operators: 1 persons
- Power: 3–380 V, 3 kW
- Weight: 350 kg

Features

- HMI control. Easy operation
- Flat and firm clamping. Uniform clamping force prevents workpiece deformation or displacement.
- High working efficiency. Optimized workflow and reduced auxiliary time significantly increase productivity per unit time.
- Stable pneumatic/hydraulic drive. Optional pneumatic or hydraulic configuration based on application needs

Application

The auto strip clamping machine clamps frame bars to securely fix filter bags to frames, Bag filter production for HVAC and industrial filtration systems.
