

Hebei Leiman Filter Material Co., Ltd.
One Stop Solution Designer to Filter Production

PLMB-1

Automatic Sealing Plate Glue Injection Machine

Product Name	PLMB-1
Production Capacity	38 pcs/min
Apply Lid Diameter	any
Glue Bucket Capacity	15 kg
Motor Power	0.09 kW
Working Air Pressure	0.3 MPa
M/C Weight	250 kg
M/C Size (L × W × H)	1105 × 755 × 1050 mm

Applications

This machine is suitable for the rotary type filter plate sealing glue injection.

Through computer control can easily adjust the work piece conveying, etc. and injecting a series of actions, the coordinated, stable work.

This machine can be in uniform glue injection process in filter cover
