

Hebei Leiman Filter Material Co., Ltd.

One Stop Solution Designer to Filter Production

PLMB-4

Automatic Sealing Plate Glue Injection Machine

Product Name	PLMB-4
Production Capacity	40 pcs/min
Apply Lid Diameter	any
Glue Bucket Capacity	15 kg
Motor Power	3 kW
Working Air Pressure	0.3 MPa
M/C Weight	350 kg
M/C Size (L × W × H)	1000 × 600 × 1600 mm

Applications

This machine is suitable for the rotary type filter plate sealing glue injection.

Through computer control can easily adjust the work piece conveying, etc. and injecting a series of actions, the coordinated, stable work.

This machine can be in uniform glue injection process in filter cover.
