

PLPB-850

Bag Filter Auto Cutting Machine For Fabric

Features

- Automatic electrical control system for easy adjustment of cutting length.
- High efficiency and simple operation for stable daily production.
- Automatic production counting with an emergency stop button to reduce material waste caused by incorrect operation.
- Neat and straight cutting edge, making the material easier to sew and join.

Applications

This machine is used for cutting the fabric bag filter.

Specification

- Product Name: PLPB-850
- Capacity: 10 pieces/min
- Power Supply: 220 V / 50 Hz
- Air Pressure: 0.6 MPa
- Machine Width: 800 mm
- Slitting Width: 700 mm
- Main Power: 2 kW
- Machine Weight: 400 kg
- Dimensions: 1300 × 2300 × 2200 mm

Components

- Fabric placing system
- Roll loading system
- Moving fabric cutting system
- Convey working table
- Electrical control cabinet
