

Hebei Leiman Filter Material Co., Ltd.
One Stop Solution Designer to Filter Production

PLPQ-1

Full-auto Paper Coiling Machine

Product Name	PLPQ-1
Production Capability	150 pcs/h
Adjustable Coil Diameter	50-130 mm
Adjustable Coil Width	70-120 mm
The Capacity of Hot Melt Unit	20 kg
Heating Power of Hot Melt Unit	10 kW
Power Supply	220 V / 50 Hz
Working Air Pressure	0.6 MPa
M/C Weight	700 kg
M/C Size (L × W × H)	2500 × 800 × 2200 mm

Features

- The rolling speed can be adjusted freely to appropriate tightness according to the size of the coil diameter.
- Fast glue melting speed, glue feeding volume can be adjusted by the frequency converter easily. Rubber and nozzle are independently temperature-controlled.

Applications

It is technically suitable for shaping the coil paper of Toyota filter element.
