

Hebei Leiman Filter Material Co., Ltd.

One Stop Solution Designer to Filter Production

PLRX-1000

HDAF Hot Melt Threading Machine

Applications

This machine is mainly suitable for big oil filter and air filter cartridge cylindrical winding reinforcement, after winding filter strength, resistance to deformation ability.

Product Name	PLRX-1000
Production Capacity	2 pcs/min
Air Filter Length	1000 mm
Air Filter Diameter	400 mm
Machine Power	4.2 kW
Working Air Pressure	0.06 MPa
Power Supply	380/50 V/Hz
Operating Temperature	Up to 300 °C
M/C Size (L × W × H)	1500 × 730 × 1400 mm

This machine is suitable for a plurality of glass fiber line, line, hot melt adhesive intertwined.

Product spacing through computer set control, high precision.

Winding way products: spiral and circular.

Winding in the machine on the line is flat or round, can change the surface change by threading mouth.
