

**Hebei Leiman Filter Material Co., Ltd.**

*One Stop Solution Designer to Filter Production*

# PLTN-100-8

*Full-Auto Turntable Bypass Valve Welding Machine*

## **Applications**

*This machine is suitable for the automatic welding machine for automobile diesel oil filter cover and fixed plates.*

<b>Product Name</b>	<b>PLTN-100-8</b>
Rated capacity	100 kWa
Rated primary voltage	380/50 V/Hz
Phase number	1
Rated primary current	263 A
Working pressure	0.4 MPa
M/C Weight	850 kg
M/C Size (L × W × H)	1500 × 800 × 1700 mm

This machine has 8 stations on the work piece, the work piece automatically removed after welding.

The welding is through pneumatic pressing the electrode welding, and the welding current through direct heating method to reach the spot.

Welding time is short, high efficiency, stable welding quality.
