

**Hebei Leiman Filter Material Co., Ltd.**

*One Stop Solution Designer to Filter Production*

# PLTN-200-8

*Full-Auto Turntable Thread Cover Spot-welding Machine*

## **Applications**

*This machine is suitable for the automatic welding machine for automobile diesel oil filter cover and fixed plates.*

<b>Product Name</b>	PLTN-200-8
Rated capacity	200 kWa
Rated primary voltage	380/50 V/Hz
Phase number	1
Rated primary current	263 A
Working pressure	0.4 MPa
M/C Weight	850 kg
M/C Size (L × W × H)	1500 × 800 × 1700 mm

-  This machine has 8 stations on the work piece, the work piece automatically removed after welding.
-  The welding is through pneumatic pressing the electrode welding, and the welding current through direct heating method to reach the spot.
-  Welding time is short, high efficiency, stable welding quality.
