

Hebei Leiman Filter Material Co., Ltd.

One Stop Solution Designer to Filter Production

PLYG-650-A

Separate HEPA Glass Fiber Pleating Machine

Product Name	PLYG-650-A
Production Capacity	10 m/min
Filter Media Width	≤650 mm
Adjustable Height Range	Any adjustment
Machine Power	2 kW
Working Air Pressure	0.6 MPa
Power Supply	220/50 V/Hz
M/C Weight	500 kg
M/C Size (L × W × H)	3560 × 1285 × 2460 mm

Applications

This machine is mainly used for plate glass fiber and PP filter material folding forming.

The machine fold and fold high are controlled by computer, can be arbitrary adjustment.

The machine of glass fiber paper and corrugated molding of aluminum foil and paper can be completed at the same time in the above operation.

The machine can be heated in a print mark, print out the PP filter paper.

This machine is equipped with the frequency converter to match different working conditions.
