One Stop Solution Designer to Filter Production

PLZJ-2A

Automatic Sealing Plate Glue Injection Machine

Applications

This machine is suitable for the rotary type filter plate sealing glue injection.

Product Name	PLZJ-2A
Production Capacity	38 pcs/min
Apply Lid Diameter	any
Glue Bucket Capacity	10 kg
Motor Power	3 kW
Working Air Pressure	0.3 MPa
M/C Weight	360 kg
M/C Size (L × W × H)	2700 × 480 × 1350 mm 1050 × 730 × 1630 mm

Through computer control can easily adjust the work piece conveying, etc. and injecting a series of actions, the coordinated, stable work.

This machine can be in uniform glue injection process in filter cover
